### Hole Ball.

As many holes as there are players are made in the ground, in a straight line, one beyond the other, about three feet apart. Each player has a number corresponding to a hole. About ten feet from the first hole is drawn a line facing it. On this the first player stands, in line with the holes, and tries to throw a ball in one of them. If the ball falls into the fifth hole he scores five, and the player who is No. 5 takes his place on the line and pitches the ball. A score limit of twenty-five or fifty is made, and the one who obtains that amount first wins.

### Enigma.

I am composed of eight letters.  
My 4-7-8-2 is an insect of great activity.  
My 4-2-3 is a great distance.  
My 8-5-6 is to expire.  
My 1-2-8 is a kind of fly.  
My whole was a president of the United States.  
Answer.—Garfield. Words—Flea, far, die, gad.

### An Opinion.

Hudson Maxim, inventor of high explosives and one of the world's greatest chemists, says, "The wreath of cigarette smoke which curls about the head of the growing lad holds his brain in an iron grip which prevents it from growing and his mind from developing just as surely as the iron shoe does the foot of the Chinese girl."—American Boy.

### An After Dinner Trick.

Take a dinner plate and fill with water to the depth of an eighth of an inch, perhaps a little more. Then put a small bit of candle in the center, light and over it place a tall glass tumbler, such as lemonade or iced tea is served in. Just as the inverted tumbler touches the plate the water will rise within the glass.

### Bedtime.

When I go to bed at night,  
Before we snuff the candle light,  
My mother makes me truly say  
If I've been good the living day.

And when she knows that I've been good  
And done just what she said I should,  
She hugs me in her arms up tight  
And kisses me a last good night.

But when I have to say I'm bad,  
She takes my hand and looks so sad,  
And seems to love me all the more,  
It somehow makes my heart feel sore.  
And then I whisper low and say  
I won't be bad another day.  
—Philadelphia Ledger.

## WHAT A PROMINENT MAN HAS TO SAY.

Orlando, Fla.—"My occupation is that of painter and all of my trade know what a deadly enemy we have in lead and turpentine. I am also a practical nurse and know by theory and experience the value of Dr. Pierce's Golden Medical Discovery. It has been the means of curing me of lead colic and gastritis. The unnatural state that my kidneys had been in was entirely amended, too, by the medicine. My stomach was in such a state that I could not rest at night, and I had to adopt a very limited diet. Now I can eat anything, with comfort. I can also state that the 'Discovery' was what I needed to give me tone and vigor, as my impaired digestion had deprived me of sustenance. I enjoy the best of health now."—MR. DEXTER ROBERTS, 813 Lemon St., Orlando, Fla.

Dr. Pierce's Golden Medical Discovery helps the stomach digest the food and manufacture nourishing blood. It has a tonic effect and soon enables the stomach and heart to perform their functions in a natural, healthy manner, without any outside aid.

Contains neither alcohol nor narcotics. Its ingredients are made public and printed on wrapper. It's a pure alternative extract made with glycerine from native roots and herbs.

Dr. Pierce's Pellets regulate and invigorate stomach, liver and bowels. Write Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., and receive free confidential medical advice, or send for the Common Sense Medical Adviser. Three times only for a cloth bound book of 1008 pages. Illustrated with colored prints, etc.

## A Crabby Story

(He)—"Do you like crabs?"  
(She)—"Yes."  
(He)—"Does your papa like crabs?"  
(She)—"Yes."  
(He)—"Does your mama like crabs?"  
(She)—"I think so."  
(He)—"Your brother, does he like crabs?"  
(She)—"I have no brother, sir."  
(He)—"Well, if you had a brother, do you suppose he would like crabs?"  
He must have been buying crabs at—
